ABSTRACT

This report of selected characteristics and degree programs for Virginia's public and private colleges and universities is published by the State Council of Higher Education. The report provides information frequently requested by students, parents, and other citizens including: headcount enrollment, institutional charges, and degree programs. In addition, the institutions have indicated which degree programs are offered off campus or in the evening hours. (Author/KE)

REPORT PREPARED BY

Gordon K. Davies, *Associate Director*
Martha F. Robinson, *Secretary*

INTRODUCTION

For the past nine years, the State Council of Higher Education has published a report of selected characteristics and degree programs for Virginia's state-supported colleges and universities.

In 1971, the Council added to this publication information about the independent colleges and universities in Virginia. By combining information from the independent institutions with that collected from the state-supported colleges and universities, a general but comprehensive picture of higher education in the Commonwealth has been obtained.

This report has been developed to provide information frequently requested by students, parents, and other citizens. Prospective students are encouraged to seek information concerning admission standards and procedures from the Director of Admissions at each institution in which they are interested. Although costs are generally higher at the independent colleges, it should be noted that financial aid opportunities at these institutions may compensate for the additional cost. Two statewide financial aid programs which are of special significance are the College Scholarship Assistance Program (CSAP) and the Tuition Assistance Grant and Loan Program (TAGLP). CSAP is a need-based financial aid program of grants and loans to Virginia students in state-supported institutions and of loans to Virginia students in the State's private institutions. For 1975-76, TAGLP is a program of loans to Virginia students in the State's private institutions. Further information about these programs can be obtained from the Directors of Financial Aid at the institutions.

In this tenth edition of the publication, the institutions have indicated which degree programs are offered off campus or in the evening hours (after 4:00 p.m.). This information has been added in recognition of the growing importance of adult continuing education, and in recognition of the fact that increasing numbers of students now choose to combine work and study rather than to enroll full time in pursuit of a degree. Degrees which can be earned in the evening hours are indicated in italics. Degrees which can be earned off campus are indicated in bold face. All of the programs offered by the institutions within the Virginia Community College System are available during the evening hours. For further information about these programs, contact the institutional Director of Admissions.

Although the Council will be pleased to respond to questions of a general nature about information in this publication, requests for additional or more detailed information should be directed to the individual institution.

All data included in the report are for the academic year beginning September, 1975, and changes may occur during the year.

The Council of Higher Education hopes that this report will prove to be a valuable service to higher education in the Commonwealth. The Council welcomes comments and suggestions for future improvements in this publication.

Daniel E. Marvin, Jr.
Director
